

Recently, Mayberry ISD was awarded the 21st Century CCLC grant from TEA. The grant provides \$1,288,000 to provide afterschool programs to economically disadvantaged and at-risk students at ten MISD campuses. Campuses included in the program are 1 High School, 1 Middle School, 1 Intermediate School, 2 Middle School, 2 Intermediate School, 1 Elementary School, 2 Elementary School, 3 Elementary School, 4 Elementary School, and 5 Elementary School. Programs will be open Monday through Friday after school. Each campus will be open at times deemed appropriate based on campus need.

The purpose of the program is to ensure that students graduate and are ready for college and/or career. The four components included in the program will be academic support; enrichment opportunities; family engagement and education; as well as college/career preparation. This exciting, new program will provide students opportunities to participate in activities such as art, music, theatre, film-making, photography, science, cooking, homework support, and tutoring. In addition, parents will have opportunities to work on their GED, ESL skills, and parenting skills through our Parent University.

Students and families who qualify for the program can enroll and begin participating September 10, 2010. The program will be offered at no charge to families. Qualifying criteria must be met and is available now at the office or you may call 555-555-5555.
